

National Institute of Aerospace
Department of Education and Outreach
1100 Exploration Way
Hampton, Virginia 23666

January 2023

To Shelley Spears, Director of Education & Outreach at the National Institute of Aerospace:

As the Lead Faculty Advisor(s), I/we would like to offer this letter of support for the

(University/College)

team competing in the 2023 FAA Data Challenge – Student Competition. The project,

titled _____ has the full
(Project Title)

support of _____.
(Department, Laboratory, or School of Signee)

Facilities, resources, and equipment at the university will be made available to the student team members as needed to successfully design, build, and test their proposed concept.

I/We understand the full research and results of the team’s abstract will be presented during the 2023 FAA Data Challenge Forum, tentatively scheduled for late June 2023. Assistance will be provided to facilitate processing travel reimbursements for the team members.

Academic accommodations, if necessary and requested in advance, can be made so that student participants may attend the 2023 FAA Data Challenge Forum.
